

## MICHAEL ALEX BASWETI

Nairobi, Kenya • michaelbasweti@gmail.com • [Portfolio](#) • [Linkedin](#) • [Github](#)

### SUMMARY

Over 6 years building scalable systems across East Africa. Led cross-border tech deployments, architected payment platforms, and championed agile transformations. Passionate about robust backend engineering, cloud systems, and AI-enhanced problem solving.

### EXPERIENCE

#### Lead Software Engineer – Nation Media Group | 2023–Present

- Built and scaled finance & courier systems across 3 countries, securing \$1M+ in deals
- Integrated Zoho + Microsoft Graph API; boosted team workflows
- Mentored teams, led DevOps practices, co-led company-wide innovation think tank

#### Senior Software Engineer – DOne Group | 2022–2023

- Built telco credit systems for Airtel & MTN; enabled real-time airtime lending
- Developed SMS scheduling tools (Mozambique) and USSD integrations (Guinea)
- Led Agile transformation and service architecture with Clojure + Java

#### Software Engineer – Nation Media Group | 2019–2022

- Designed Nation Courier system (Python, React, PostgreSQL) used regionally
- Created SAP-integrated Distributor Management System hosted on AWS
- Trained users across East Africa and led rollout planning

#### Software Engineer – Andela | 2018–2019

- Built Converge (calendar system) with Python, GraphQL, React
- Created publishing platform and event-based microservices

### EDUCATION

**BSc, Computer Science** – Laikipia University, Kenya

### ACHIEVEMENTS

- Deployed cross-border digital payments system (increased transaction speed by 15%)
- Scaled courier tech to secure \$1M+ partnerships
- Boosted agile velocity by 30% at DOne

### CORE SKILLS

Python  
Django  
Flask  
JavaScript  
NodeJS  
ExpressJS  
ReactJS  
React Native  
Java  
PostgreSQL  
AWS  
M-Pesa API  
REST APIs  
Clojure  
Zoho Deluge  
Agile/Scrum  
System Design

### LANGUAGES

Swahili (Native)  
English (Proficient)
